Cloze Test

Directions (1-10): The passage given below contains several blanks where words have been removed. For each blank, choose the most suitable word/ words from the given options and mark it as your answer. Additionally, there are 5 filler questions. The word/ words chosen for each filler question should be the same as the one that conveys the same meaning for the corresponding blank in the cloze test. For instance, the word/ words that fit in Blank A should be the same in both the cloze test and the fillers, maintaining a consistent meaning.

India is on the __(A)__ of a significant transformation in its healthcare sector. Healthcare leaders across the country are driving this transformation by adopting the latest technologies like artificial intelligence (AI), advanced analytics, virtual care, and automation. This will redefine the way care is delivered in a more efficient and patient-centric manner. These advancements promise to enhance the quality of care and make healthcare more accessible, personalised, and timely for millions of Indians. But __(B)__ this growth, a few immediate challenges require attention. Timely access to care is the _(C)_ of a well-functioning healthcare system. However, the growing demand for healthcare services has resulted in increased pressure on healthcare professionals, leading to staff shortages, burnout, and increased waiting times. Healthcare workers are the true __(D)__ of our healthcare system, often the unsung heroes who continue to deliver care under immense pressure. But increased pressure on our healthcare systems has impacted people's ability to get the

With staff shortages at the forefront, it's worth noting that 94% of healthcare leaders recognise the positive impact of virtual care in easing this burden, according to the Future Health Index (FHI) 2024 India report. In this context, AI and data-driven insights can potentially be powerful tools for transformation. According to the FHI, 93% of Indian healthcare leaders are investing or planning to invest in generative AI within the next three years — a sign of growing confidence in its

c. make ends meet

earn just enough money to become involved completely on

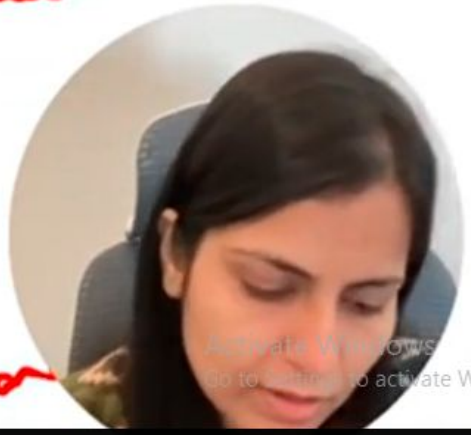
(a) Only a

(b) Both a and b

(c) Only b

(d) Both b and c

(e) Only c



Directions: The passage given below contains some blanks wherein the words/ phrases have been removed. Find the words/ phrases from the given options that is suitable for each blank and mark that as your answer. Also after completing the passage, read the given passage carefully and answer the questions that follow.

Quiz

The air quality index (AQI) in many Indian cities has entered the red zone several days this year. Millions of people have to face serious health hazards due to __(A)__ increases in air pollution. It is clear that ___(B)__ . As per two seminal studies pertaining to Delhi, the Urban Emission (2015) and the TERI study (2018), a significant contributor to urban smog is PM2.5 and PM10 pollution, which is caused by the transport and construction sector. About 9 lakh new trucks are added to Indian roads every year to an already running fleet of 70 lakh trucks. India carries over 2 trillion tonne kilometres freight on trucks, annually. These trucks consume over one-fourth of Indian oil imports and contribute to over 90% of road transport CO_2 emissions.The rate of increase of the truck fleet is expected to keep increasing in a growing network of roads in a/an __(C)__ economy. *If all these new trucks are powering (p)/ by diesel-fired internal combustion engines (q)/ vehicles, as is the case today, our cities (r)/ will face a greatest deluge of PM2.5 pollution*
