PREPARE FOR BANK (PO/ CLERK), SSC,UPSC, State PSC, CAT,CTET,RAILWAY EXAMS,CDS, TET, NDA/AIRFORCE, NET and all Govt. Exams

VOCABULARY

1. Autonomous (स्वायत्त)

Meaning: Having self-government or functioning independently.
Synonyms: Independent, self-reliant, sovereign.
Antonyms: Dependent, controlled, subservient.
Example: The development of autonomous vehicles has revolutionized the automobile industry.

2. Strides (प्रगति)

Meaning: Significant progress in development or improvement.
Synonyms: Progress, advancement, headway.
Antonyms: Setback, regression, stagnation.
Example: The country has made significant strides in renewable energy production.

VOCABULARY

3. Dearth (कमी)

Meaning: A scarcity or lack of something.
Synonyms: Shortage, paucity, insufficiency.
Antonyms: Abundance, surplus, plenty.
Example: The dearth of skilled professionals has hindered the company's growth.

4. Exacerbate (बढ़ाना/खराब करना)

Meaning: To make a problem, situation, or feeling worse.
Synonyms: Aggravate, intensify, worsen.
Antonyms: Alleviate, reduce, improve.
Example: The lack of funding will only exacerbate the issues in the healthcare system.

VOCABULARY

5. Turmoil (अशांति)

Meaning: A state of great disturbance, confusion, or uncertainty.
Synonyms: Chaos, upheaval, disorder.
Antonyms: Calm, peace, stability.
Example: The country was in political turmoil after the controversial election.

6. Flaccid (नम; ढीला)

Meaning: Lacking firmness or stiffness.
Synonyms: Limp, weak, slack
Antonyms: Firm, stiff, rigid
Example: The plant's leaves became flaccid due to the lack of water.

VOCABULARY

7. Plausible (संभवत: सही)

Meaning: Seemingly reasonable or probable.
Synonyms: Credible, believable, likely
Antonyms: Implausible, unlikely, unbelievable
Example: The explanation provided by the witness was plausible and consistent with the evidence.

8. Repercussion (परिणाम)

Meaning: An unintended consequence occurring some time after an event or action.
Synonyms: Consequence, effect, fallout
Antonyms: Cause, origin
Example: The environmental repercussions of the industrial spill were severe and long-lasting.

VOCABULARY

9. Perplexing (उलझन भरा)

Meaning: Completely baffling; very puzzling.
Synonyms: Confusing, puzzling, bewildering.
Antonyms: Clear, straightforward, simple.
Example: The professor's explanation was perplexing to the students.

10. Cursory (उपरी तौर पर)

Meaning: Hasty and therefore not thorough or detailed.
Synonyms: Superficial, perfunctory, brief.
Antonyms: Thorough, detailed, meticulous.
Example: A cursory glance at the documents revealed several errors.

VOCABULARY

Phrasal Verbs

1. Back away
Meaning: to move backwards away from something or someone, usually because you are frightened

2. Cut out
Meaning: to delete or remove

3. Nod off
Meaning: to begin sleeping, especially not intentionally

4. Turn down
Meaning: reject something offered or proposed.

VOCABULARY

Idioms & Phrases

1. Climb the ladder

Meaning: To advance or achieve success in a hierarchy, especially in a career

2. Bury the hatchet

Meaning: To make peace or resolve a conflict, usually after a disagreement

3. Water under the bridge

Meaning: something that happened in the past and cannot now be changed

VOCABULARY

4. Jump on the bandwagon/ hop on the bandwagon

Meaning: to join in a popular activity

5. The tip of the iceberg

Meaning: it is one small part of a much larger problem

Article for Reading

India’s journey so far on the AI military bandwagon

As the world has begun utilising and developing artificial intelligence (AI) for military purposes amidst debates of ethical concerns, India also appears to have hopped on the bandwagon. Last year saw a defence Budget of ₹6.21 lakh crore ($75 billion), with an emphasis on modernising and upgrading India's military. India has begun to make strides towards integrating AI systems with their military and using them across various systems. Products such as the Indrajaal autonomous drone security system have been developed. India has also attracted investments from numerous foreign tech giants for its AI ecosystem — Microsoft, for example, has committed approximately $3 billion to building data centres in Telangana. Multiple government figures have made statements about the utility of AI for military purposes, including Union Defence Minister Rajnath Singh, who remarked that "artificial intelligence or AI has the potential to revolutionise military operations, from predictive analytics to autonomous decision-making systems".

Additionally, India is a part of multiple joint initiatives internationally that focus on AI. All these steps indicate the pouring of money and manpower into developing AI systems for military purposes. India is on track to fully utilising the potential of AI. However, there are some obstacles. Once addressed, they will ensure that India's adoption of AI will be even better. A lack of digitised data to train systems on as well as a dearth of funds are the obvious factors. The biggest issue is the fact that the data centres required to run AI systems are expensive. India's military already has to focus on replacing legacy systems such as older aircraft with newer models, which is an expensive endeavour in itself. India's legacy hardware is no longer competitive in the global sphere, and significant resources are being directed towards replacing and upgrading it. However, more general hurdles which are harder to overcome exacerbate the problem. One such issue is that India's policies on AI are still fragmented or lack guidelines for implementation.

For instance, the National Strategy for Artificial Intelligence outlines India's vision for deploying AI. However it provides little insight on actual mechanisms for deployment. Similarly, the responsible AI for All paper outlines the importance of accountability and transparency and puts forward principles for responsible AI use, but falls short in making military-AI-specific recommendations. Major strides have been made through these documents, but, as of now, arguably more robust frameworks need to be put in place for the deployment and the regulation of AI in the military. The Defence Artificial Intelligence Council (DAIC) and the Defence AI Project Agency (DAIPA) have been set up, and their objectives will bridge these gaps. However, there have not been any recent updates available to the public from these bodies.

Summary

The passage discusses India's progress and challenges in adopting artificial intelligence (AI) for military purposes. It highlights India's significant investments in AI, including the development of products like the Indrajaal drone system and attracting investments from tech giants such as Microsoft. Statements from government officials underscore the potential of AI in revolutionizing military operations. India is also part of international AI initiatives and is making efforts to modernize its military. However, challenges such as limited digitized data, high costs of data centers, outdated legacy systems, and fragmented policies on AI hinder its progress. While frameworks like the National Strategy for Artificial Intelligence and the Responsible AI for All paper have been introduced, they lack specific guidelines for military AI deployment. Organizations like the Defence Artificial Intelligence Council (DAIC) and the Defence AI Project Agency (DAIPA) aim to address these issues, though public updates on their progress are lacking.

The tone of the passage is informative and analytical. It provides a balanced view by highlighting both India's achievements and the hurdles in implementing AI for military purposes.

Reading Comprehension

Based on the above passage, answer the following questions:

Question 1:
Which of the following is a limitation of the “Responsible AI for All” paper as discussed in the passage?

a) Lack of focus on ethical concerns in AI deployment.
b) Failure to outline principles of transparency and accountability.
c) Inadequate military-specific recommendations.
d) Lack of collaboration with foreign entities for AI development.
e) None of the above

Question 2:
Which of the following statements about India's progress in military AI is true according to the passage?

a) India has replaced all its legacy systems with AI-driven technologies.
b) Microsoft is the sole foreign company investing in India's AI ecosystem.
c) India has no international collaborations in AI development.
d) Indrajaal is an autonomous drone system developed for military use.
e) None of the above

Question 3:
Why is a lack of digitised data considered a challenge for India's adoption of AI in military applications?

a) It increases dependency on foreign technology.
b) It hinders the training of AI systems.
c) It reduces investment in AI infrastructure.
d) It limits public awareness of AI capabilities.
e) None of the above

Article for Skimming

Forging leadership with India’s youth power

Every year, January 12 is celebrated across the length and breadth of India as ‘National Youth Festival’, a day which is also the birth anniversary of Swami Vivekananda. The Viksit Bharat Young Leaders Dialogue is an innovative one, launched with the vision of engaging India’s youth in the developmental journey of the nation. The programme seeks to harness the collective energy, creativity and leadership potential of young minds to contribute towards realising a Viksit Bharat, i.e., a Developed India. In line with Prime Minister Narendra Modi’s belief that the youth of the country are central to India’s growth, the dialogue provides a platform for young leaders to engage in discussions, exchange ideas, and collaborate on solutions to the nation’s challenges. The competition and its stages are designed to inspire the youth to think critically and contribute in a proactive way towards India’s progress. The dialogue is a dynamic, multi-stage initiative, designed to engage and empower India’s youth in the country’s developmental journey. The competition has four stages, the first being a Viksit Bharat quiz held digitally on the My Bharat platform.

This stage tested a participant’s knowledge about India’s achievements, challenges, and vision for a developed future, covering areas such as sustainable development, technology, and national policies. The top scorers moved on to the second stage, i.e., essay and blog writing, where they had to write on themes such as tech for Viksit Bharat and empowering youth for Viksit Bharat, reflecting on their vision for India’s future. These submissions were evaluated for originality. In the third stage, the Viksit Bharat Vision Pitch Deck, participants at the State level presented innovative ideas for India’s development through a compelling pitch deck. The best teams from each State advanced to the fourth and last stage of the Viksit Bharat National Championship, which will be held at the Bharat Mandapam in New Delhi on January 11-12, 2025. In the finale, the selected teams will pitch their visionary solutions to the Prime Minister. This in itself is a unique opportunity to influence national policy and contribute to India’s vision of a Viksit Bharat. The competition is structured to test not only a participant’s knowledge and creativity but also their leadership and communication skills.

The National Youth Festival is an annual celebration of India's youth, fostering a spirit of national integration and promoting the ideals of youth empowerment and creativity. However, this year's festival stands out in several ways. The focus this year is on Youth for Sustainable Development, a theme that resonates with growing recognition of young people as the drivers of global change. In line with India's commitment to the Sustainable Development Goals (SDGs), the festival has incorporated workshops, seminars and cultural activities that align with the vision of a greener, more inclusive, future. Additionally, there is a greater emphasis on the role of technology and innovation in achieving national goals, with specific sessions dedicated to Tech for Good and Innovation for India's Development. Another unique feature this year is expanded virtual participation. With digital platforms having been integrated into the festival, young people from remote corners of the country can participate in discussions, workshops, and showcase their talents and ideas online.

Question 4:
Which statement about the structure of the Viksit Bharat Young Leaders Dialogue is true, based on the passage?

a) The finale requires participants to submit essays on youth empowerment.
b) The competition is limited to urban participants with access to digital platforms.
c) The final stage offers participants a chance to pitch ideas to the Prime Minister.
d) The quiz stage tests participants solely on sustainable development goals.
e) None of the above

Question 5:
What distinguishes this year's National Youth Festival from previous editions, according to the passage?

a) A complete focus on cultural and artistic expressions.
b) Inclusion of international youth delegations in the festival.
c) Exclusive emphasis on India's historical achievements.
d) Integration of digital platforms for virtual participation.
e) None of the above

Today's Descriptive Question

- **Write an essay of 200 words about highlighting the importance of Voting in Democratic Societies.**

Voting is a cornerstone of democratic societies, embodying the principles of freedom and equality. It is a fundamental right and responsibility that allows citizens to influence government decisions and policies. Through voting, individuals can express their preferences for leaders and legislation, ensuring that their voices are heard and considered in the political process.

One of the primary importance of voting is that it legitimizes the government. When citizens participate in elections, they consent to be governed by the elected officials, thereby strengthening the democratic framework. High voter turnout is indicative of a healthy democracy where the populace is engaged and invested in the governance of their country.

Moreover, voting promotes accountability among politicians.

Elected officials are more likely to be responsive to the needs and concerns of their constituents if they know that their re-election depends on their performance. This accountability is crucial for good governance, as it encourages transparency, responsiveness, and integrity in public office. Voting also ensures representation. In diverse societies, it is vital that all groups have a say in how they are governed. By participating in elections, minority and marginalized groups can elect representatives who understand and advocate for their specific interests and rights.

In conclusion, voting is essential for maintaining the health and vitality of democratic societies. It empowers citizens, ensures government accountability, and promotes fair representation, all of which are crucial for the functioning of a just and equitable society.

- **Write a letter to request a salary increase from the Manager.**

[Your Name]
[Your Address]
[City, State, ZIP Code]
[Email Address]
[Phone Number]
[Date]

[Manager's Name]
[Company Name]
[Company Address]
[City, State, ZIP Code]

Subject: Request for Salary Increase

Dear [Manager's Name],

I hope this message finds you well. I am writing to discuss the possibility of a salary increase.

Over the past [time period, e.g., year], I have taken on additional responsibilities and contributed significantly to our team's success, including [briefly mention specific achievements or contributions]. I believe my efforts and the value I bring to the company merit a review of my current compensation.

I am committed to continuing my hard work and dedication to our team's goals. I would appreciate the opportunity to discuss this request further and explore how my compensation can better reflect my contributions and the current market standards.

Thank you for your consideration.

Sincerely,

[Your Name]
[Your Contact Information]

Match the column

1. Climb the ladder
2. Bury the hatchet
3. Water under the bridge
4. Jump on the bandwagon
5. The tip of the iceberg

A. To make peace or resolve a conflict
B. to join in a popular activity
C. it is one small part of a much larger problem
D. To advance or achieve success in a hierarchy
E. something that happened in the past and cannot now be changed

Answer:

1-d

2-a

3-e

4-b

5-c

Vocabulary

1. Autonomous:
2. Strides:
3. Dearth:
4. Exacerbate:
5. Turmoil:
6. Flaccid:
7. Plausible:
8. Repercussion:
9. Perplexing:
10. Cursory:

Rc ans

1.

Ans: c

Explanation:

The passage mentions that the "Responsible AI for All" paper outlines principles of accountability and transparency but falls short in providing military-specific recommendations.

Reference:

"The responsible AI for All paper...falls short in making military-AI-specific recommendations."

Incorrect Options:

a) Ethical concerns are addressed in the paper.

b) Transparency and accountability are highlighted in the paper, not omitted.

d) Collaboration with foreign entities is not a focus of this paper.

2.

Ans: d

Explanation:

The passage clearly mentions that "products such as the Indrajaal autonomous drone security system have been developed" as part of India’s strides in military AI.

Reference:

"Products such as the Indrajaal autonomous drone security system have been developed."

Incorrect Options:

a) Legacy systems are being replaced, but this is an ongoing process.
b) While Microsoft has invested significantly, other foreign investments are implied.
c) India is part of multiple international initiatives on AI.

3.

Ans: b

Explanation:

The passage explicitly states that the lack of digitised data is a hurdle because it affects the ability to train AI systems effectively.

Reference:

"A lack of digitised data to train systems on...is the obvious factor."

Incorrect Options:

a) The passage does not connect data scarcity with dependency on foreign technology.
c) Investment in AI infrastructure is linked to funding challenges, not data issues.
d) Public awareness is not discussed in relation to data limitations.

4.

Ans: c

Explanation:

The finale allows selected teams to pitch their visionary solutions directly to the Prime Minister, making it a unique opportunity.

Reference:

"In the finale, the selected teams will pitch their visionary solutions to the Prime Minister."

Incorrect Options:

a) Essays are part of the second stage, not the finale.
b) Virtual participation ensures inclusivity for remote participants.
d) The quiz covers multiple areas, not just sustainable development.

5.

Ans: d

Explanation:

This year, the festival includes expanded virtual participation, allowing young people from remote areas to engage online.

Reference:

"Another unique feature this year is expanded virtual participation...young people from remote corners of the country can participate in discussions, workshops, and showcase their talents and ideas online."

Incorrect Options:

a) While cultural activities are included, they are not the sole focus.
b) The passage does not mention international youth delegations.
c) The festival highlights sustainable development and technology rather than focusing solely on historical achievements.
