SET-8

Direction (36-40): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. Answer the following questions based on the rearranged sequence.

A. Vultures, often referred to as nature's sanitation workers, play a crucial role in maintaining the ecosystem's health by swiftly removing dead animals that might otherwise spread harmful diseases such as anthrax, rabies, and tuberculosis.

B. However, in the Indian subcontinent, these essential birds have seen a catastrophic decline, with several species teetering on the brink of extinction.

ABDEC

C. Efforts to conserve vultures, such as banning harmful drugs like diclofenac and creating vulture-safe zones, have been initiated, yet the recovery of their populations remains sluggish and uncertain.

A BDE C

2.5 min

D. This rapid decrease in vulture populations is primarily attributed to the widespread use of diclofenac, a veterinary drug commonly administered to livestock, which proves lethal to vultures when they consume the carcasses of treated animals.

E. Other factors such as habitat loss, poisoning, and the reduction in the availability of food sources have also contributed to their decline.

SET-9

Direction (41-45): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. Answer the following questions based on the rearranged sequence.

A. One of the most significant achievements is the Chandrayaan-3 mission, which successfully accomplished a soft landing on the Moon in 2023.

B. India's space agency, ISRO (Indian Space Research Organisation), has been making remarkable strides in space exploration, particularly with its recent endeavors.

C. The success of Chandrayaan-3 not only amplified India's space capabilities but also underscored the nation's expanding influence in global space exploration.

D. This marked a pivotal milestone for India, positioning it as the first nation to land a spacecraft near the Moon's south pole.

E. The organization has also made considerable progress in Martian exploration, with its Mangalyaan (Mars Orbiter Mission) being a notable feat.

Question 41:

Which of the following options is the **FIFTH (LAST)** statement, after the correct rearrangement?

SET-10

Direction (46-50): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. Answer the following questions based on the rearranged sequence.

A. The ongoing vigilance against such threats also underscores the need for global cooperation in safeguarding public health.

B. Recently, concerns have emerged regarding a new strain of the virus from China, raising fears of potential outbreaks and global spread.

C. Health experts continue to monitor the situation closely, emphasizing the importance of vaccinations, preventive measures, and swift responses to control the spread of the virus.

D. As countries scrambled to manage the health crisis, the world learned more about the virus's transmission and symptoms, prompting lockdowns and travel restrictions.

EDBCA

ED BCA

E. The COVID-19 pandemic, caused by the novel coronavirus, drastically impacted the world in 2020, leading to widespread illness, loss of life, and economic disruptions.

Set-1

Direction (1-5): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. And answer the following questions based on the rearranged sequence.

P. Looking to the future, India aims to broaden its space initiatives with ambitious projects, such as crewed spaceflights through the Gaganyaan program and continued progress in satellite technology.

Q. India on Thursday became the fourth country to successfully achieve an unmanned docking in space.

R. With this achievement, India is also poised to play a more prominent role in international space collaborations and future manned missions.

S. Apart from India, only the United States, Russia, and China have developed and tested docking capabilities.

T. This accomplishment marks a significant milestone in India's ambitious space exploration program, demonstrating its growing technological prowess.

(e) Q

Set-2

Directions (6-10): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. And answer the following questions based on the rearranged sequence.

P. The actions were taken after the platform consistently delivered error-ridden headlines, leading to criticism from a news organization and press freedom advocates.

Q. In response, Apple is working to refine the feature to ensure accuracy and reliability before reintroducing it.

R. While Apple's AI issues are not the first instance of a developer facing challenges with technology fabricating information, popular models like ChatGPT are also known for frequently generating confident but inaccurate content.

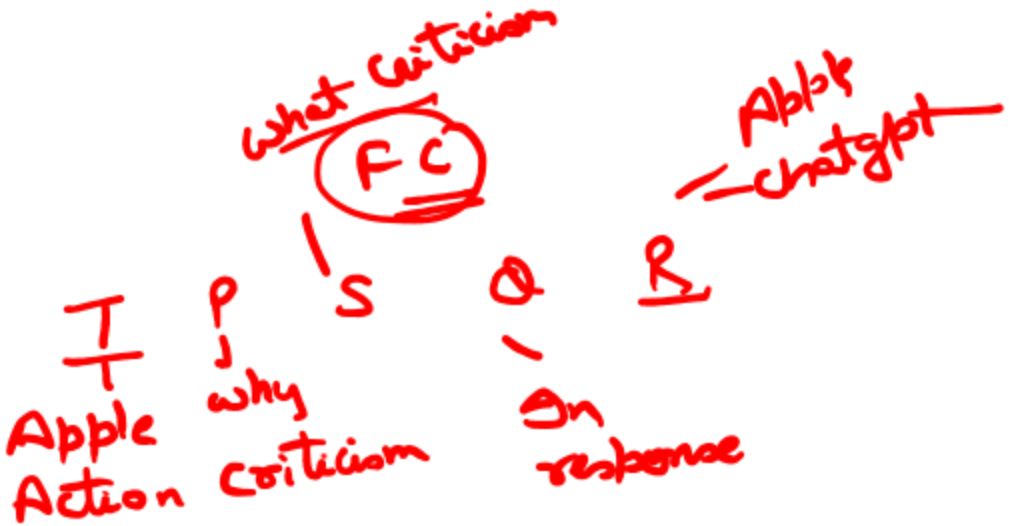
S. Advocates argued that the technology generated misleading or completely false summaries of news headlines, which closely resembled standard push notifications.

T P S Q R

T. Apple is temporarily removing its recently launched artificial intelligence feature that summarises news notifications.

Question 6:

Which of the following options is the pair of the **INTRODUCTORY** statement and the **TERMINAL** statement, respectively, after the correct rearrangement?



(a)PS

(b)ST

(c)RT

(d)RQ

(e)TR

Question 7:

Which of the following options is the pair of the **ANTEPENULTIMATE** statement and the **PENULTIMATE** statement, respectively, after the correct rearrangement?

(a) PT

(b) SR

(c) SQ

(d) TP

(e) PS

Question 8:

Which of the following combinations is the combination of **THREE CONSECUTIVE** statements after the correct rearrangement?

(a)RPS

(b)TPS

(c)QRT

(d)RTS

(e)PQT

Question 9:

Which of the following options is the **SECOND** statement, after the correct rearrangement?

(d) T

(e) S

Set-3

Direction (11-15): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. And answer the following questions based on the rearranged sequence.

P. During the broadcast of SpaceX's November test launch, Flight 6, engineers Jessie Anderson and Kate Tice shared that the company was nearing completion of a 1 million-square-foot Starfactory in South Texas.

Q. This is because the Starship vehicles will remain in space for extended missions to the moon, Mars, or as tankers for refueling.

R. He also said that SpaceX anticipates that it will need a large fleet of Super Heavy boosters — and an even larger stable of Starship spacecraft.

P T R Q S

S. But the boosters will return and quickly be reused for the next launch.

T. Anderson explained that the facility's goal is to enable the production of hundreds of ships per year.

Question 11:

Which of the following options is the **SECOND** statement, after the correct rearrangement?

(d) R

(e) T

Set-4

Direction (16-20): In the following questions, a set of sentences is given and are jumbled. You are required to rearrange the given sentences in a proper manner to form a meaningful paragraph. And answer the following questions based on the rearranged sequence.

P. Moreover, promoting a culture of adaptability and creating internal mobility opportunities can help employees navigate transitions more smoothly during difficult periods.

Q. Job cuts, or layoffs, happen when companies reduce their workforce to lower costs, enhance efficiency, or respond to market shifts.

R. They can also provide severance packages or career counseling.

S. To lessen these effects, companies can prioritize open communication with employees and offer retraining programs.

Q T S R P

T. Although layoffs may offer short-term advantages for businesses, they frequently result in negative consequences for employees, such as financial instability and decreased morale.
